

## Prevent Meningitis and Cancer

### Teachers play a vital role in keeping their students healthy.

Hastings Prince Edward Public Health (HPEPH) will visit your school twice a year to provide free vaccination to all Grade 7 students. Please confirm clinic dates with your school administrative staff. Write down the clinic dates for your class planning:

**Your first school clinic date is:** \_\_\_\_\_ .

If possible avoid booking tests or other outside activities, as the school clinic will likely last most of the school day.

### Teacher's Checklist for consent forms:

- Distribute consent packages to *all* Grade 7 students
- Remind students to return signed consent forms **by September 17<sup>th</sup>**
- Collect signed consent forms and place in the envelope provided
- Check off student names when consents are returned
- Drop off the envelope to the school office for HPEPH nurse to pick up

### Teacher's Role on the day of clinic:

- Have any additional signed consent forms brought to the clinic
- Keep the students calm to ensure a safe clinic environment
- Encourage students to take their record home to their parent/guardian
