Dear Mom-to-be,

The Reproductive Health Program at Hastings Prince Edward Public Health would like to congratulate you on your pregnancy. We are here to help you have the healthiest pregnancy and newborn possible.

A public health nurse is available to speak with you about having a healthy pregnancy, preparing to be a parent, and can help you and your baby get off to a good start with breastfeeding information and support. A public health nurse can also help connect you with programs in the community.

When you sign this letter, your health care provider will send your contact information to Public Health. A public health nurse will get in touch to let you know about programs and services, like prenatal classes, that can support you with your pregnancy and birth.

We look forward to speaking with you soon.
